About Us

Rugira is an AI trading engine for professional desks, delivering risk-managed, policy-controlled execution across CeFi and DeFi while you retain full custody. Security, compliance, and operational discipline—from approvals to immutable audit logs

Our Services

Strategy Engine

From templates, backtest, to paper/live under policy.

Execution & Risk

CeFi & DeFi routing; enforce caps, halts, approvals.

Analytics & Reporting

Realtime monitoring, blotter, audits; exports + APIs for BI.
